The President's Message

This is Shrine Mason

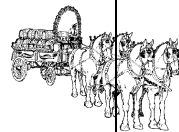

Month so you are encouraged to invite a Mason and his Lady to attend this meeting. The price for them is right, FREE! This helps Masons become more familiar with Shrine and our Club.

Vidalia Onions arrive any day now, with Fairborn Shrine Club selling approximately 100 bags to date. Let us know if you need to receive yours. They are \$6 for a 5 pound bag.

The Fairborn Independence Day Parade will be on Wednesday, July 4th starting at 1000 AM. Several Antioch Parade Units are anticipated to participate with us in the parade. Coordinating this is Noble Harold. Float decoration plans will be discussed at our June 7 Picnic Meeting.

The float decoration party will be held at the same location, Links and Kinks Bicycle Shop at the Fairborn Plaza Shopping Center on July 3rd. Noble Bryan Swinford has again allowed us to use his business for this event. You cannot get any closer to parade staging area than this. The float will be assembled starting at 4:00

OPEN MEETING ***(Ladies always invited)***

When: Thursday, May 3, 2012

Where: Roush's Restaurant

Time: Social Hour -- 6:00 PM
Dinner – 6:30 PM

Thurs Sept 6 – Stated Meeting

Thurs Oct 4 – Stated Meeting

Thurs Nov 1 – Stated Meeting & Elections

Thurs Dec 6 - Christmas Party

Understanding Engineers #1

Two engineering students were biking across a university campus when one said, "Where did you get such a great bike?" The second engineer replied, "Well, I was walking along yesterday, minding my own business, when a beautiful woman rode up on this bike, threw it to the ground, took off all her clothes and said, "Take what you want." The first engineer nodded approvingly and said, "Good choice: The clothes probably wouldn't have fit you anyway."

Understanding Engineers #2

To the optimist, the glass is half-full. To the pessimist, the glass is half-empty. To the engineer, the glass is twice as big as it needs to be.

Understanding Engineers #3

What is the difference between mechanical engineers and civil engineers? Mechanical engineers build weapons. Civil engineers build targets.

Understanding Engineers #4

Fairborn Shrine Club Newsletter

The graduate with a science degree asks, "Why does it work?" The graduate with an engineering degree asks, "How does it work?" The graduate with an accounting degree asks, "How much will it cost?" The graduate with an arts degree asks, "Do you want fries with that?"

Understanding Engineers #5

Three engineering students were gathered together discussing who must have designed the human body. One said, "It was a mechanical engineer. Just look at all the joints." Another said, "No, it was an electrical engineer. The nervous system has many thousands of electrical connections." The last one said, "No, actually it had to have been a civil engineer. Who else would run a toxic waste pipeline through a recreational area?"

Understanding Engineers #6

Normal people believe that if it ain't broke, don't fix it. Engineers believe that if it ain't broke, it doesn't have enough features yet.
